SMART DUSTBIN ESTIMATOR

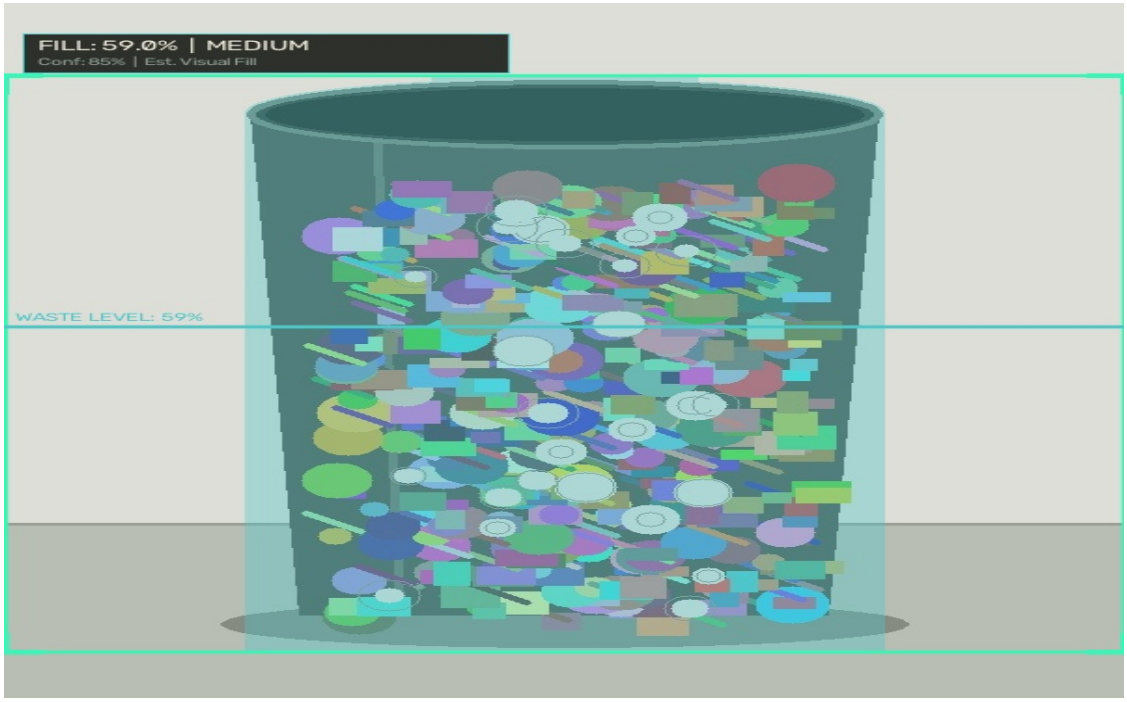

WASTE INTELLIGENCE PLATFORM — COMPUTER VISION ANALYSIS REPORT

Analysis ID:	#1	**Date & Time:**	2026-11-12 19:05 UTC
Image File:	Sample: bin_critical_overflow.jpg	**Confidence Score:**	84.8%
Status Classification:	**MEDIUM (59.0%)**	**Waste Height:**	367 px / 622 px

OPERATIONAL RECOMMENDATION:

Bin is half full. Standard collection cycle applies.

VISUAL ANALYSIS EVIDENCE

Disclaimer: This document contains an estimated visual fill level produced via classical computer vision segmentation and ROI boundary analysis. True volumetric waste capacity may vary based on container geometry, waste compactness, lighting, and camera angle.
